FULL STACK JAVASCRIPT Developer

React.js | Next.js | Express.js | MongoDB | T3 | Shopify

With four years of dynamic experience, I thrive on mastering new technologies while excelling in JavaScript and React.js. I've honed my skills in frontend and backend development, consistently delivering innovative web solutions. My passion for learning drives me to explore emerging technologies, enriching my toolkit and enhancing project outcomes. Agile and versatile, I seamlessly integrate new concepts into my work, ensuring adaptability and future-proofing solutions. Whether it's leveraging Next.js for robust UIs or crafting Shopify apps, I approach each challenge with enthusiasm and a commitment to excellence. My dedication to staying ahead of the curve empowers me to deliver impactful results and drive continuous improvement in every project I undertake.

WORK EXPERIENCE

BAMF - *Remote*   01/2024 – currently

Full Stack Web Developer (Next.js, Astria, Tailwind)

During my tenure at BAMF as a Full Stack Developer, I honed my skills and expertise to craft innovative web solutions by:

- Integrated the Astria Fine Tune API to generate high-quality models.
- Created a comprehensive web application, using Next.js for a seamless user experience and for efficient server-side processing.
- The web application was successfully deployed on Fly.io, with high availability, scalability, and optimized deployment methods.

For.co - *Remote*   09/2023 – 12/2023

Full Stack Web Developer (Next.js, Shopify, Tailwind, framer-motion)

During my tenure at For.co as a Full Stack Developer, I honed my skills and expertise to craft innovative web solutions by:

- Harnessing the power of framer motion to make beautiful animation.
- Leveraging TypeScript to ensure robust and type-safe code, promoting maintainability and reducing errors throughout the development process.
- Utilizing Shopify REST API to develop robust backend solutions for Shopify apps.
- Leveraging Shopify Polaris, the frontend component library for React.js, to craft engaging and user-friendly frontend UIs

Ahmed Farooq   +92 316 9322863
Plazah Inc.- *Remote*   04/2023 – 08/2023

Full Stack Web Developer (Next.js, TRPC, Prisma)

During my tenure at Plazah as a Full Stack Developer, I honed my skills and expertise to craft innovative web solutions by:

- Harnessing the power of Next.js for frontend development, ensuring highly responsive and performant user interfaces.
- Seamlessly integrating trpc with Prisma for the backend, optimizing data management and enhancing scalability.
- Leveraging TypeScript to ensure robust and type-safe code, promoting maintainability and reducing errors throughout the development process.

This multifaceted approach not only enhanced the efficiency of our projects but also elevated the overall quality and user experience of the applications we delivered.

PartnersWire- *Remote*   04/2020 - 08/2022

Shopify App Developer

During my tenure at PartnersWire, I served as a full-stack expert, making significant contributions to both client and server-side development. My responsibilities encompassed:

- Utilizing Shopify REST API to develop robust backend solutions for Shopify apps.

- Leveraging Shopify Polaris, the frontend component library for React.js, to craft engaging and user-friendly frontend UIs.

This dual focus allowed me to seamlessly integrate backend functionality with frontend aesthetics, ensuring a cohesive and efficient user experience. My expertise in the Shopify ecosystem enabled PartnersWire to deliver high-quality, scalable solutions that met the evolving needs of our clients.

Upseller- *Remote*   12/2019 – 03/2020

Javascript Developer (React.js, Shopify)

During my tenure at Upseller, my role was pivotal in developing their REST API with seamless Shopify integration. I played a crucial part in:

- Architecting and implementing the REST API to ensure robust communication between Upseller's platform and Shopify.
- Assisting frontend developers in integrating the API with the frontend, optimizing performance and usability.

Our primary objective was to develop a versatile popup builder, capable of functioning both as a standalone JS-based popup and as a Shopify app. Unfortunately, the project faced an untimely demise due to funding constraints from the founder. Despite this setback, my contributions laid the groundwork for a potentially transformative product in the Shopify ecosystem.

Ahmed Farooq   +92 316 9322863
movers.az- *Remote*   05/2019 – 11/2019
React.js Developer

At movers.az, I played a pivotal role in transforming their Figma design into a fully functional React application. This involved:

- Translating intricate design specifications from Figma into clean and efficient React components.
- Ensuring pixel-perfect accuracy and consistency between the design and the final product.

By meticulously implementing the design in React, I facilitated a smooth transition from concept to reality, empowering movers.az to deliver a visually stunning and user-friendly web experience.

EDUCATION

Mirpur University Of Science And Technology – *Mirpur, AJK, Pakistan*

Bachelor of Engineering

2020 – currently

PROGRAMMING LANGUAGES AND FRAMEWORKS

- HTML/CSS
- Javascript
- SQL
- React.js
- Next.js
- Express.js
- Shopify App Development
- Shopify Polaris
- Shopify Liquid
- Tailwind
- Sass
- MongoDB
- TRPC
- Prisma
- Framer Motion
- Redis
- GIT (Version Control)

PROFESSIONAL SKILLS

- Proficient in designing and implementing RESTful APIs to facilitate seamless communication between front-end and back-end systems.

- Skilled in optimizing application performance to ensure fast loading times and smooth user experiences.
- Experienced in leveraging cloud platforms such as AWS, Azure, or Google Cloud Platform for scalable and reliable deployment of web applications.
- Proficient in managing and optimizing database systems to efficiently store and retrieve data, enhancing application functionality.
- Well-versed in implementing web security best practices to safeguard applications against common vulnerabilities and threats.
- Mastery of Microsoft Office (Word, Excel, PowerPoint) and Google Suite (Docs, Sheets, Slides).

LANGUAGE COMPETENCIES

- English: fluent
- Urdu: native
